

LET'S CHAT SUMMER IDEA:

## *Extreme Scavenger Hunt*

---

### Event Overview:

This is a high energy event with several moving parts! It is a great way to get parents, students, and volunteers together in a casual and fun setting. The extreme scavenger hunt is similar to the TV show, "The Amazing Race". Students will need to be broken up into teams small enough to fit in a car so they can travel around your city to complete different challenges and earn clues to continue the hunt! We usually keep our scavenger hunt in a small area like our city so that students are able to do more activities and spend less time traveling. The run time of this event is usually around 4 hours.

---

### Things You Will Need:

- Parents or Volunteers with larger vehicles (SUV or Van)
  - Parents or Volunteers to run different challenges around your city and pass out clues!
  - Supplies and locations for your individual challenges.
  - Time to set-up ahead of time (especially for challenges that don't need volunteers)
  - Promo for the event to get students excited!
  - Pizza or a Destination Unknown style event to end the event.
- 

### Sample Event Timeline:

1:00 - Team Registration (create a sign up sheet with your driver's names and the amount of spots they have available on their team. We allow students to sign up as they arrive.)

1:30 - Rules

2:00 - Distribute the First Clue

Allow enough time for students to travel safely and complete all challenges. We usually include 10 challenges that take around 5 minutes to complete.

3:30 - 4:00: Arrive at Final Destination for Pizza!

---

### Rules:

1. Teams Must Compete In ALL Challenges to Win. The first team to complete all challenges and arrive at the final destination will receive bonus points.
2. Obey All Traffic Laws.
3. Teams Must Stay Together.
4. Encourage Participation from All Teammates.
5. Don't Do Anything Illegal or Dangerous.
6. Don't Cheat.
7. Have fun!
8. All time bonuses will be awarded at the discretion of the judges. All times will be recorded after all teams arrive at the final destination.
